

[illegible]

A heatmap visualization showing the absolute correlation between 10 entities, labeled E1 through E10 on both the x-axis and y-axis. The color scale on the right indicates the correlation value, ranging from 0.0 (white) to 1.0 (black). The diagonal elements, representing the correlation of an entity with itself, are all black (1.0). The off-diagonal elements show varying degrees of correlation, with the highest values (darkest gray) appearing for pairs like (E1, E2), (E2, E3), (E3, E4), (E4, E5), (E5, E6), (E6, E7), (E7, E8), (E8, E9), and (E9, E10). The lowest values (lightest gray) are seen for pairs like (E1, E8), (E2, E7), (E3, E6), (E4, E3), (E5, E4), (E6, E5), (E7, E6), (E8, E7), (E9, E8), and (E10, E9).
